Rating Rationale

The rating assigned to the bond issue of Alteo Limited (“Alteo”) derives strength from its strong parentage of CIEL and IBL groups; albeit absence of majority shareholding of both the groups in Alteo, professional and qualified management team, established group with investments across diverse business verticals (primarily sugar, energy and property), stable performance & cash surplus position of dividend-paying group companies, good performance of its Tanzanian sugar operations, availability of sizeable land bank that can be monetized to reduce debt levels, low project execution risk in property development venture (Anahita Estates Limited) and comfortable financial performance with low overall gearing & comfortable liquidity position at group level.

The rating is, however, constrained by Alteo being an investment company and its only source of revenue being dividend from group companies - contingent upon performance of various subsidiaries/associate companies, improving but still relatively low sugar prices in Mauritius impacting the profitability of Mauritius sugar sector and consequently Alteo’s Mauritius-based group companies in this segment are envisaged to report subdued performance in the medium-term, subdued performance of its Kenyan sugar operations, risk associated with timing of the sale of land and property development and the company’s exposure to market & political risk associated with operations in Tanzania & Kenya.

Improvement in operational & financial performance of dividend-paying group companies, sustained improvement in performance of its sugar manufacturing subsidiaries in Mauritius and Kenya, more than envisaged extent of support extended to some of its subsidiaries, ability to sell land at envisaged price and within expected timelines, and any new debt-funded acquisitions & renovations are the key rating sensitivities.

BACKGROUND

Alteo Limited (“Alteo”), is the investment & holding company of Alteo group (Alteo Limited and its subsidiaries) and is an associate company of IBL group (holding 27.6% stake) and of CIEL group (holding 20.96% stake). The balance of 51.44% is held by individuals, pension funds, corporates and insurance companies.
