Rating Rationale

The rating assigned to the bond issue of MUR 500 million of CIEL Finance Limited ("CFL") has been reaffirmed at CARE MAU A+ Stable. The rating continues to derive strength from a strong parentage of CIEL and Amethis group, experienced and resourceful promoters, professional and experienced management team, satisfactory performance of various affiliates in banking & financial sector of Mauritius and Madagascar, strong operational and financial parameters of major dividend (80-90%) paying company - BNI Madagascar, turnaround in performance of Bank One in 9MFY21 after posting a loss in FY20, successful performance of KIBO Funds with track record of profitable exit from majority of the investments in KIBO Fund I and satisfactory gearing & debt service coverage indicators of CFL.

The rating is however constrained by high dependency on dividend income from affiliates – which is primarily contingent on the performance of BNI Madagascar, high level of competition in Mauritian and Madagascar banking segment, low penetration rate of banking operations in Madagascar, dependency of the operations of BNI Madagascar to the political and economic environment of the country and its exposure to foreign currency fluctuation risk and interest rate risks.

Positive Factors that could, individually or collectively, lead to positive rating action/upgrade:

- Improvement in operational & financial performance of the dividend paying companies
- Timely and profitable exit from the investments in KIBO funds
- BNI Madagascar and Bank One – Maintain asset quality, profitability, capital adequacy with comfortable liquidity and asset liability maturity profile.

Negative Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Dip in performance in Bank One and BNI Madagascar
- Loss making exits from the investments in KIBO funds
- BNI Madagascar and Bank One – decline in asset quality, profitability, capital adequacy and asset liability maturity profile.

CFL also owns 8.3% stake in KIBO Fund II LLC (KIBO II) and a 50% stake in KIBO Capital Partners Limited which manages the two private equity funds. It holds 23% in a stockbroker, LCF Securities Ltd. (along with the IBL group) and 100% in CIEL Finance Data Services Ltd.

Banks' credit to deposit ratio has increased to 0.69x in FY20.

Bank One's deposit base declined from MUR 48 billion as on Dec 31, 2020, to MUR 37 billion in as on Sept 30, 2021, primarily because of the conscious decision of the Bank's senior management to redeem all doubtful deposits from global companies (GBC deposits) in line with the country's effort to clean up all suspicious monetary transaction and adhere to the stringent AML/FATF guidelines of European Commission to exit Mauritius' inclusion from the grey list of E.U.
